

Heating Instructions for Food Safety

HEAT IT BEFORE
YOU EAT IT!

- Before you enjoy your meal, please heat using a microwave or oven. It is highly recommended to use a food thermometer to ensure temperatures are met.

Meatless
Entree: 140°F

Entree
Containing
Meat: 165°F

KEEP IT COOL!

- If you are not going to eat your meal immediately, put it in the fridge as soon as possible to keep it fresh.
