

March 30, 2020

To Our Valued Customers:

While we recommended the following breakfast and lunch items are heated and/ or cooked to an internal temperature of 160 degrees, (as instructed on our Product Formulation Sheets (PFS), prior to serving), they are classified as "Ready to Eat (RTE)" which by definition is, "a food product prepared or cooked in advance, with no further cooking or preparation required before being eaten. Below is the instruction to heat the RTE product for consumption using a microwave oven:

For the Grilled Cheese Sandwich

From Thaw State *(Microwave oven vary, adjust time accordingly to heat product):

Microwave Only For Best Results:

1. Open one end of the package
2. Place on microwave safe plate
3. Microwave 40-50 seconds; or until heated through

From Thaw State *(Microwave ovens vary, adjust time accordingly to heat product):

Microwave & Pan (if desire a crunchy bread result)

1. Open one end of the package
2. Place on microwave safe plate
3. Microwave 30 seconds; or until heated through
4. 45-60 seconds on medium heat in pan; or until desired toast/crunch reached

For all other RTE Sandwiches and burgers:

From the Thaw State *(Microwave oven vary, adjust time accordingly to heat product):

Microwave Only:

For Best Results:

1. Open one end of the package
2. Place on microwave safe plate
3. Microwave 40-50 seconds; or until heated through

Sincerely,

A handwritten signature in black ink that reads "Pisey Kor".
